

Exploring Computer Science AHL Schedule

Students:

The goal of your at home learning will be to increase understanding and problem solving ability for everything we've done so far this semester. Every day that we would have had class you need to check **Google Classroom** for the updated assignments. I will post an agenda and the documents that you need for that class. You are expected to complete and submit the work by the next class period. While it is encouraged that you consult with others, the work should be your own.

This is a work in progress so we will all be learning together how to make it work well. Constructive feedback is welcome.

If you feel like you need a little bit of extra help, let me know and we can schedule a Google meet meeting and see if others might be interested.

Please feel free to email me at ggeiss@juhsd.net.

Student Objectives

- Learn about the science and math of contagious diseases
- Finish what was going on in the last class
- Extend learning on topics already introduced
- Improve grades (revision, late work)

Day	Agenda
Day One: Friday, March 20th	Topic: Coronavirus (COVID-19): Science, Information, and Inspiration Work Due: Monday 3/23 by midnight
Day Two: Tuesday, March 24rd	Topic: Google Sheets formulas; presentations Due: Wednesday 3/25 at midnight
Day Three: Thursday, March 26th	Topic: Unit 5 Final Project preparation; Google forms Due: Sunday 3/29 by midnight
Day Four: Monday, March 30th	Topic: Google sheets graph making practice

	Due: Tuesday 3/31 by midnight
Day Five: Wednesday, April 1st	Topic: Unit 5 Final Project preparation continued Due: Thursday April 2nd by midnight
Day Six: Friday, April 3rd	Topic: Game creation in Scratch Due: Sunday April 5th by midnight
