Help Ms. Madden and Ms. Ambrose raise money for **scholarships for the class of 2018!**

Wow! We hit \$1,000! Let's make it \$5,000 for Oceana High School Student Scholarships!

We have two willing teachers who will publicly shave their heads if we reach the goal of \$500. But of course we think we can do better than that, so donate to support us in our real goal of reaching \$5000 and experience the joy of giving.

As a reward for donating, you will get to see the

video of two of our staff go bald just to show how important college scholarships are to them and their students. We are almost halfway there! Any amount is greatly appreciated! [Donate Here.](#)

The fireworks booth is the biggest fundraiser at Oceana High School. We need your help to run the booth. You can choose the dates but you must be 18 years and older to be able to sell in the fireworks booth. If you are under 18 there are still ways you can help, such as doing the beach clean up, making signs, and helping promote the booth. Please email mtang@juhsd.net if you have any questions. Thank you for your support.

-- The JUHSD school board will be conducting school site board meetings at each of our district's high schools. On Thursday May 3rd the JUHSD school board and Superintendent Dr. Terry Deloria attended an on site board meeting at Oceana in the staff lounge.

The focus of this meeting was the Oceana community response to the district's proposed mandate that all humanities courses follow the district ELA scope and sequence. This would significantly change Oceana's humanities program.

ASB presented a petition to the board with student signatures requesting that Oceana retain our humanities program and a thoughtful letter explaining why this curriculum is so important to Oceana.

At the end of this meeting our Academic Council facilitator, Ms. Madden, asked the board to reaffirm Oceana's status as a site based managed alternative school.
