

Physics CP AHL Schedule

Ciao students:

The goal of your at home learning will be to increase understanding and problem solving ability for everything we've done so far this semester. Every day that we would have had class you need to check **Google Classroom** for the updated assignments. I will post an agenda and the documents that you need for that class. You are expected to complete and submit the work by the next class period. While it is encouraged that you consult with others, the work should be your own.

This is a work in progress so we will all be learning together how to make at home learning work well. Constructive feedback is welcome. If another teacher did something that you liked, please let me know and I will try to incorporate it.

If you feel like you need a little bit of extra help, let me know and we can schedule a Google meet meeting and see if others might be interested.

Please feel free to email me at ggeiss@juhsd.net.

Student Objectives

- Learn about the science and math of contagious diseases
- Finish what was going on in the last class
- Review for unit and final exams
- Extend learning on topics already introduced
- Improve grades (revision, late work)
